Education

High School Diploma
[Salih İbrahim Kırcalı Vocational and Technical Anatolian High School] Graduation Year: [2024]

Technical Skills

- Languages & Frameworks: Flutter, Dart, HTML, CSS, JavaScript, Unreal Engine,
- Databases: Firebase, MongoDB, MySQL,
- Other: GitHub, Firebase, Linux, Unreal Engine

Projects

Personal Website (Html & Css & JavaScript)

- I created a website where I showcase my own projects and personal information.
- I added various animations and media elements using HTML, CSS and JavaScript.

ERP Application (Flutter & Firebase)

- I developed an ERP system through which companies can manage their operations.
- It includes modules such as user management, data entry and reporting.

ERP and Shopping Application (Flutter & MYSQL)

- I developed an application with both ERP and shopping functions.
- The application has a payment system and admin panel. The administrator can track orders and users.

Basic Shopping App (Flutter & Firebase)

- I developed an application with basic shopping functions.
- It includes product pages and user interface design, but does not have a full shopping system.

Interests

- Mobile and web application development
- Game development
- Technological innovations and developments

languages
- Turkish: Native language
- English: Intermediate level (knowledge of technical terms)
